

INDIANA UNIVERSITY
CAPITAL PROJECTS

February 12, 2021

Greetings,

IU has a zero tolerance mask policy. All personnel are expected to wear face masks at all times indoors. This is not just a good practice, it is a policy supported by a variety of University, City, State and Federal mandates.

We recognize that this is difficult to enforce, but we will insist that the contracting community and our vendors enforce it. We have seen a rising number of complaints in the last week and the complaints are not isolated to a single campus, site or contractor.

Bottom line - If there is more than one complaint on a project in a two week period IU personnel will direct the contractor to take a site wide safety stand down of one day at no cost or schedule impact to the university.

v/r

Jim Stewart

Assistant Vice President for Capital Projects

Indiana University
