Attached Drawing Sheets: A430

## **PART 1 - GENERAL INFORMATION**

1.1 NOT USED

## **PART 2 - BIDDING REQUIREMENTS**

2.1 NOT USED

## **PART 3 - SPECIFICATIONS**

3.1 NOT USED

## **PART 4 - DRAWINGS**

4.1 A430 – SECTION DETAILS

- A. Detail **7/A430**: note 04 20 00-U to be **04 20 00-J (wire cut brick)**.
- B. Detail **8/A430**: add cast stone sill below metal panel.

## **PART 5 - QUESTIONS AND ANSWERS**

5.1 **Questions:** We need clarification on the outdoor learning center materials at Areas A, B, and C. Sheet A201A Area A references elevations on Sheet A306 (Areas B and C have similar discrepancies). Sheet A306 notes the material at the base as #1 wire cut brick. However, the wall sections from the floor plan (Details 1 & 2 Sheet A414) note the material as cast stone with a 5 x 8 transition unit. The blow-up details (8 & 9 Sheet A430) note the veneer as a wire cut brick. Are these areas stone? If so what type and is there a transition unit and/or just sills?

**Answer: Courtyards at Areas A, B, and C, material below the metal panels is wire cut brick with a cast stone sill. No Limestone at these areas, see addendum #17 drawings for corrections.**
